A multi-day, multi-stage music Festival held on a 700 acre farm in Manchester, Tennessee. USA

We could not have imagined a better solution than the Holophone for capturing the special environment of the Bonnaroo Festival in front of 80,000 fans. Recording the Dave Matthews Band, the Allman Bros, the Black Crowes, Bob Weir and Widespread Panic on the main stage, outdoors in the woods of Tennessee, is a challenge to begin with.

Recording the giant Bonnaroo audience in Surround with the Holophone worked out perfectly!
