ABC-HDTV Broadcast. Air Canada Centre,
There's something very unique about
This was a departure from the usual Hockey Broadcast we normally do up here in Canada, having been...
We set the Holophone up at the First Camera position on the center-ice line, about ten rows up, as that is seen from a viewer's perspective.
A puck was shot hard at the net and missed by inches, the crowd made a tremendous "whooooaaa". We FELT it in the truck up behind us, and to the back were in the little sound-boot...
THIS was HOCKEY. This was being at the Game!
